**RIDING TEST: 15 - 31 October 2013**

**ERGONOMIC TEST: October/November 2013**

**PUBLICATION: Spring 2014**

**DEADLINE REISSUE: 30 October 2013**

Test schedule: Autumn 2013

### THE EXTRAENERGY PEDELEC AND E-BIKE TEST

EXTRAENERGY HAS BEEN TESTING PEDELECS AND E-BIKES since 1992. At that time only three vehicles were established on the world market.

Nowadays, about 40 vehicles participate in each testing and there has been a great demand for testing positions. Customers depend on ExtraEnergy test results to be published twice a year in different media online and print. Our quality seals have been established since 1993 to help with a reliable purchase.

Since 1 January 2013, ExtraEnergy secured a cooperation with the magazine „ElectroBIKE“ published by Motorpresse Stuttgart. The test results will be available in the ElektroBIKE magazine print and online. In addition, ExtraEnergy will publish the ExtraEnergy online magazine in English and German version. The ExtraEnergy online magazine will be available as free download at [www.ExtraEnergy.org](http://www.ExtraEnergy.org).

THE EXTRAENERGY PEDELEC & E-BIKE TEST combines **two different tests**, that take place **on an outdoor test track** to get an accurate picture of the vehicle on an every day usage.

->DRIVING TESTS in Tanna are conducted with **a unique and special measuring technology**. The parameter distance, support, efficiency of the drive, average speed etc. are determined for tour, hill and urban track.

->ERGONOMIC TEST evaluates **every day usage** and the intuitive usage of 20 volunteers in different cities.

THE ENTIRE RESULT of the tests combines your information, the test results of ergonomic test and of the test drives.

As a test participant you will receive your **test results additionally in a detailed form** for internal use and analyses.

THE RESULTS are published consulting ExtraEnergy and other media **online and in print**. We secured a cooperation with the ElektroBIKE magazine while the ExtraEnergy magazine reaches downloads of at least 40,000.

THE QUALITY SEALS „Good“ and „Very Good“, as well as awards of products in 10 categories, according to results, offer an excellent opportunity to showcase your products.

We provide digital data for the purpose of advertising at no cost for you, if a quality seal is awarded. Seals as stickers can be purchased.

*We appreciate your interest and look forward getting to know you and your products!  
You will find all details about the test and the test registration on the following pages.*

Test schedule: Autumn 2013

### VEHICLE/S

Please deliver your vehicle (middle size frame) until 10 October 2013 at the latest to: ExtraEnergy Test GmbH, Koskauer Strasse 100, 07922 Tanna, Germany

The test vehicles have to be delivered to ExtraEnergy Test GmbH - Koskauer Str. 100 - 07922 Tanna in the same condition as dealers or end customers would receive them.

### EXCLUSION CRITERIA

Since the test can only be conducted in a narrow time frame, ExtraEnergy must define clear criterias for a particular vehicle if the test will be accepted as prematurely ended. The following factors will result in the premature conclusion of (and expulsion from) the test:

- Late delivery of the vehicle to be tested, i.e. after 10 October 2013 to ExtraEnergy Test GmbH in Tanna.
- Failure on a test-drive  
(If the failure cannot be corrected by the manufacturer within 24 hours)
- More than one breakdown, making testing impossible for more than two days
- Not enough battery power  
(Every vehicle must be able to proceed around the test track of 14.5 km at least once on its own battery power: Should your vehicle need more than one battery for the distance, please deliver enough battery packs to Tanna. These will be carried by the test riders.)
- Fraud leads to immediate expulsion from the test  
(ExtraEnergy reserves the right to publish any such attempt to manipulate)
- A minimum of 5 test riders must be able to ride around the complete test track on the bike provided

### PRICES

All prices are net prices (excl. VAT) and quoted in euro (EUR).

### PAYMENT

The booking is considered binding as soon as you receive an invoice from ExtraEnergy Test GmbH. The invoice will be due immediately. ExtraEnergy will reassign your reserved testing place if payment is not received until 8 March 2013 at the latest.

### AFTER THE TEST

In case the test results should be questioned, the tested vehicle will have to stay at ExtraEnergy Test GmbH in Tanna at least 12 months after release of the test results.

### CONTACT

For requests regarding the test, please contact Ms. Sandra Winkler (office) or Mr. Sebastian Plog (CEO ExtraEnergy Test GmbH):

Tel.: +49 (0) 366 4627 094 (ExtraEnergy office in Tanna)

eMail: [sandra.winkler@extraenergy.org](mailto:sandra.winkler@extraenergy.org)

Mobil: +49 (0) 176 63458913

Test schedule: Autumn 2013

## TERMS OF THE CONTRACT

Definition: For the purposes of this contract ExtraEnergy Test GmbH i.G. will be known as the ORGANIZER. Similarly, all manufacturers, manufacturers' representatives, importers and dealers in pedelec / e-bikes, e-bikes and e-scooters, who are participating in the test and test exhibitions will be known as PARTICIPANTS.

### 1. Application and Confirmation

Your participation will be confirmed upon our receipt of your signed and completed registration form. The test and exhibition contract becomes effective for the ORGANIZER as soon as payment (see section 3) is received and we have not informed you that your participation is impossible for any reason within seven days thereafter.

### 2. General Terms of Contract

The list of services enclosed in the invitation papers and the Conditions of Participation, which have been sent to you together with the confirmation, are part of the test and exhibition contract. The ORGANIZER is responsible for the arrangement, conception and documentation of the test and exhibitions. The PARTICIPANT has no authority over the testing method, or the presentation of results. The tested vehicle will have to stay at ExtraEnergy Test GmbH in Tanna at least 12 months after release of the test results. If the tested vehicle is one of the 3 best vehicles of one product group, the vehicle will remain at ExtraEnergy e.V. in Tanna as permanent loan.

The ORGANIZER is authorized to use the test vehicle for test rides, testing, and exhibitions in compliance with the Organisation's Charter. The ORGANIZER will hand the test results to the PARTICIPANT for proof-reading, before publication. The PARTICIPANT may make changes to his address and product prices. The PARTICIPANT can also choose not to have the test results published. After receiving all test results, the PARTICIPANT will have 10 days within which to make this decision. If the PARTICIPANT doubts the correctness of the test results, which are understandable to the ORGANIZER, the test or parts of it will be repeated. Should the PARTICIPANT continue to doubt the results after the repeat test, the test may be repeated in the presence of the PARTICIPANT, or a delegated body. In this case, the PARTICIPANT will have to pay for the repeat test. Should the test vehicle reveal a defect, the PARTICIPANT will immediately send the ORGANIZER spare parts. Repair costs will be paid by the PARTICIPANT.

### 3. Billing and Payment Conditions

Following receipt of an application, a manufacturer will receive an invoice for the total cost of the participation, which is due for immediate payment, but not later than the specified time of payment. The invoice will also serve to confirm your application. The product will not be tested if full payment has not been received by the ORGANIZER on the date specified by the ORGANIZER.

### 4. Contract Withdrawal, Indemnification

The ORGANIZER can withdraw from the contract for the following reasons:

- a) In case too few PARTICIPANTS have registered to take part in the test, or the special exhibition.
- b) In case the fair and congress company withdraws its agreement for the special exhibition.
- c) In case the PARTICIPANT does not pay the full amount for the services as agreed in the contract, the ORGANIZER may withdraw from the contract immediately. In this case the PARTICIPANT cannot demand the return of any payment. In both cases, specified under a) and b) the PARTICIPANT will be fully refunded all payments received by the ORGANIZER until that day. Any further claims will not be paid. The ORGANIZER carries out the test and the special exhibition for ideological reasons only. Therefore the PARTICIPANT will have no claim for indemnification against the ORGANIZER for unsatisfactory realization during the test, or exhibition, or for damages to exhibited articles. Claims of indemnification are possible only in case of intentional or reckless actions by the ORGANIZER. The PARTICIPANT can withdraw from the contract only if the ORGANIZER agrees, and if an appropriate replacement can be found. Whether a candidate is appropriate, is decided by the ORGANIZER.

### 5. Miscellaneous

All alterations to, or abridgements of this contract must be in written form to be legal. German law applies and the local court of law where the ORGANIZER has his registered domicile. The place of performance for all actions to do with the test, is the place where the test was conducted. For all other actions the place of performance is the registered domicile of the ORGANIZER. If legal proceedings are brought, the original contract in German shall take precedence (available on request).

Test schedule: Autumn 2013

**TERMS AND CONDITIONS**

Kindly note the specifications, conditions for participation and contractual terms as described (page 1 - 11).

I have read the conditions for participation and terms of the contract and accept them. Every registrant acting on behalf of a third party herewith accepts the he/she is personally liable for the payment claimed by ExtraEnergy for the test.
